Kyber Security Awarded Excellence in Managed IT Services

Fairfield, CT May 29, 2019 – announced today that CRN®, a brand of The Channel Company, has named Kyber Security to its 2019 Managed Service Provider (MSP) 500 list in the Security category. This annual list recognizes North American solution providers with innovative approaches to managed services. These services help customers improve operational efficiencies, maximize return on IT investments, and continuously help them navigate the complexities of IT solutions.

Managed service providers are integral to the success of businesses everywhere. They empower companies to implement and operate complex technologies while staying within their budgets and keeping a focus on their core business. CRN's MSP 500 list identifies the most groundbreaking managed service organizations, with advanced solutions that have endless potential for growth.

This annual list is divided into three categories: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on-premises and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premises, cloud-based security services.

Kyber Security was chosen as a Top Managed Security 100 for their dedication to the cybersecurity landscape. In 2018, their biggest transition was moving from a managed support focus to a managed security focus. The services were tailored around cybersecurity and compliance specifically designed for small to medium sized organizations. Kyber was recognized for the impact they have made in the SMB space and their dedication to protecting others from inevitable cyber threats.

“Capable MSPs enable companies to take their cloud computing to the next level, streamline spending, effectively allocate limited resources and navigate the vast field of available technologies,” said Bob Skelley, CEO of The Channel Company. “The companies on CRN's 2019 MSP 500 list stand out for their innovative services, excellence in adapting to customers' changing needs and demonstrated ability to help businesses get the most out of their IT investments.”

“Our biggest challenge is re-educating the SMB space to evolve from the support mindset to a security mindset. It is difficult to switch to the “what if” mentality especially because most SMBs tend to lean to the break/fix mentality due to budget restraints. Our goal is to work with them to create a solution that works best for them to help them transition into this new mindset. We are honored to be recognized for our on-going efforts to protect the SMBs.” - Lynn Souza, CEO of Kyber Security.

The MSP500 list is featured at www.CRN.com/msp500.

**KYBER
SECURITY****About Kyber Security**

Kyber Security is a Managed Security Services Provider (MSSP) that is dedicated to protecting small and medium sized businesses from ever increasing cyber threats. Our managed security services can be customized to fit any company's unique cybersecurity needs, budget and compliance requirements. We can work with an already existing IT team to provide the security expertise they most likely do not have, or augment an IT security team. Our focus on cybersecurity means that our sole priority is making sure businesses are protected from, and prepared for, the next big cyber-attack. www.kybersecure.com
