

Kyber Security Awarded MSP501 for the Fourth Consecutive Year

Fairfield, CT, July 1, 2019 – We at Channel Futures are thrilled to congratulate the superior companies that have earned a spot on the 2019 MSP 501. These MSPs have distinguished themselves among the best of the best. The competition was fierce, but their commitment to taking risks on strategic business decisions, dedication to customer support and intuitive knowledge of the managed services market helped these companies rise above the competition.

This year, Kyber Security has earned their fourth consecutive year ranked at 275. MSPs were ranked according to our unique methodology, which recognizes that not all revenue streams are created equal. We weighted revenue figures according to how well the applicant's business strategy anticipates trends in the fast-evolving channel ecosystem.

"This year's winners were the largest and most diverse in the history of the award, and our winners represent the health and progressivity of the managed services market," says Kris Blackmon, Channel Futures content director and editor of the MSP 501. "They're growing their revenue, expanding their customer influence and exploring new technology that will propel them for years to come."

"In 2016 CONNECT Partners Inc. made its debut on the MSPMentor 501 list at number 341. This year, we earned spot 275 and it is an amazing honor to make the list for 4 years in a row and climb the ranks little by little. This award is YOUR award. I'm so proud of all of you and the teamwork and dedication you show every day! Everyone should be very proud of your contributions to this accomplishment." Lynn Souza, CEO of Kyber Security announced to her staff.

Background

The 2019 MSP 501 list is based on data collected by Channel Futures and its sister site, Channel Partners. Data was collected online from February 28, 2019 through May 31, 2019. The MSP 501 list recognizes top managed service providers based on metrics including recurring revenue, growth and other factors.

About Kyber Security

Kyber Security is a Managed Security Services Provider (MSSP) that is dedicated to protecting small and medium sized organizations from ever increasing cyber threats. As small organizations continue to be the biggest targets for cyber criminals, Kyber has taken enterprise grade cybersecurity programs and technologies and tailored them specifically for the SMB space. Their managed security services can be customized to fit any company's unique cybersecurity needs, budget and compliance requirements. Kyber is focused on making sure businesses are protected from, and prepared for, their next big cyberattack. www.kybersecure.com.
