
Kyber Security Awarded NextGen101 Elite

December 10, 2020 – Kyber Security has been named as one of the world’s premier managed service providers on the prestigious new 2020 Channel Futures NextGen 101 rankings.

The NextGen 101, an MSP 501 list, features resellers, system integrators, consultants and other partners with recurring revenues from business models that are diversified beyond managed or cloud services.

The NextGen 101 recognizes diversified partners with growing MSP practices and annual recurring revenues under 20% of total revenue. These partners offer managed services, but they’re also resellers, system integrators and shops that do project work. These diversified shops deserve to be recognized for what they are in their own list, not just grouped together with pure-play MSPs.

Channel Futures is pleased to name Kyber Security to the NextGen 101.

"We are truly grateful to be honored with this new recognition," said Lynn Souza, CEO, Kyber Security. "Endless thanks to our clients, partners, and friends who allow us to continue a path of success. I am very proud of the company we are building together."

Channel Partners and Channel Futures always wants to ensure that their partner communities are being recognized for what they do best and are therefore creating programs targeted toward their needs. The Nextgen 101 represents that effort.

"The NextGen 101 is designed specifically to honor partners dedicating resources to building out their practices — all while maintaining the integrity of their core businesses," said Allison Francis, editor and content producer at Channel Partners and Channel Futures. "Maybe these partners will become the MSP powerhouses of the future. Maybe they’ll continue to expand their managed services capabilities while also devoting resources to core competencies. Or maybe they’ll become a new kind of hybrid partner that isn’t yet even on our radar. We can’t wait to see what these companies will do next, and we’re excited to honor them in a list of their very own."

Background

The 2020 MSP 501 and NextGen 101 lists are based on data collected by Channel Futures and its sister site, Channel Partners. Data was collected online from Mar. 1 through November 23, 2020. The MSP 501 list recognizes top managed service providers based on metrics including recurring revenue, profit margin and other factors.

About Kyber Security

Kyber Security is a Managed Security Services Provider (MSSP) that is dedicated to protecting small and medium sized organizations from ever increasing cyber threats. As small organizations continue to be the biggest targets for cyber criminals, Kyber has taken enterprise grade cybersecurity programs and technologies and tailored them specifically for the SMB space.
